

In 2017, Cross International switched from a calendar year to a fiscal year accounting structure of July 1- June 30. For that reason, 2017 was a six month stub period and an annual report was not generated for that period. We do however have audited financial statements for the 2017 stub year running from January 1-June 30, 2017, which may be referenced [at this link](#). Additionally, you may reference Cross International's [CY2016 annual report](#) and [FY2018 annual reports](#).
